1. Set clear distribution goals

Before you can create a to-do list, you need to know what you want to achieve with your distribution. Are you aiming for a theatrical release, a

DVD release, or an online release? Once you know your goals, you can start to tailor your to-do list accordingly.

2. **Research your target audience**

Who are you trying to reach with your film? Once you know your target audience, you can start to think about the best ways to reach them. Consider their demographics, interests, and viewing habits.

3. **Choose the right distribution channels**

There are a number of different distribution channels available to filmmakers, including theatrical distributors, DVD distributors, and online platforms. Research each channel to find the best fit for your film. Consider the reach of each channel, the cost of distribution, and the level of control you will have over your film.

4. **Create a marketing and publicity plan**

Your marketing and publicity plan will help you get the word out about your film and generate interest. Consider creating a website, social media accounts, and press releases. You may also want to consider hiring a publicist to help you get your film in front of the right people.

5. **Budget for distribution**

Distribution can be expensive, so it is important to budget for it accordingly. Consider the costs of marketing, publicity, and distribution itself. You may need to raise funds to cover these costs.

6. **Get legal advice**

It is important to get legal advice before you distribute your film. An attorney can help you understand your rights and obligations, and can draft contracts to protect your interests.

7. **Be patient**

Distributing your film can take time and effort. Don't get discouraged if you don't see immediate results. Keep working hard and promoting your film, and eventually you will find success.

8. **Be flexible**

Things don't always go according to plan when you are distributing your film. Be prepared to adapt to changes and make adjustments as needed.

9. **Learn from your mistakes**

Mistakes are inevitable when you are distributing your film. The important thing is to learn from them and move on. Each mistake you make will teach you something valuable about the distribution process.

10. **Celebrate your successes**

When you finally achieve your distribution goals, take some time to celebrate. You have accomplished something amazing, and you should be proud of yourself.

Creating a comprehensive final to-do list for distributing your film is essential for ensuring its success. By following these tips, you can stay organized, track your progress, and avoid any potential pitfalls. With hard

work and dedication, you can achieve your distribution goals and get your film in front of the right audience.
